## OZOSAN™ AGRO

The India is majorly Agriculture based economy. We have diversified lands and according to that crops are grown. Major problem in many areas is Water and second is fertility of the soil.

Many agro based companies have come up with thousands of products based on the crop which is having pain area as Insecticides, Pesticides and Herbicides.

Tons of fertilizers are produced for crops growth, development. Insecticides are also produced in tons as variety of small insects and it's related of diseases destroy crops.

What is the material of these Insecticides, Herbicides and Fungicides, Pesticides?  
It's all Chemicals which in turn destroying Soils texture and capacity to absorb nutrients.

We have come with the solution which is taking care most of the things for Crop growth, and acts against pesticides, fungal and somewhat insects causing damage to the crops. It is the Oxygen which is key requirement of soil fertility and water also. Our product contains highly saturated stable dissolved Oxygen in water.

This product has a wide application on crops growing trees, germination of seeds, root enhancement and soil texture. All this requires Oxygen which is available only from air. This dissolved Oxygen in water goes deep in the soil gives effects to soil & roots can absorb more Oxygen which helps trees/crops to grow healthy.

The water required for crops will be less as every drop of water with enhanced Oxygen will be useful. It can be used in Drip irrigation in a broader way.

Even in many cases it helps to control pesticidal affected, fungal growth and insecticidal waste as high Oxygen content do not allow such growth on the crops. Even microbial growth can be controlled by the product.

The output that is the actual crops, fruits, other food products produced in a faster way and quality growth.

Our product **Ozosan Agro** is exclusive made for agriculture product and is safe non toxic made from Green and novel technology.

The product also clears some pesticidal coatings applied to the vegetables.  
We recommend and use of this product for all types agro products.

**Ozosan Agro** Comes in 5 Liter, 20 Liter and 35 Liter bulk packs.

For Commercial Enquiries please contact: **Envirosafe Techsolutions LLP, Pune.**

# **OZOSAN™** The Stable Oxygen Based Water Based Solution

**Envirosafe Techsolutions LLP** have come up with a novel solution in the field of Water, which is the most essential requirement of everybody on the Earth. Our team of Scientists has developed innovative Product named “ **OZOSAN™** ” The Stable Oxygen Based Water Based Solution

## These are few features & applications of Ozosan:

- **Ozosan** is not a Chemical compound like other stabilisers which are currently used.
- **Ozosan** can be used for decontamination with Oxygen concentration stabilized by process in Distilled water.
- It has no Stabilizer leaves no toxic colour or chemical residue.
- **Ozosan** has highest oxygen content (**Upto 50 %**) ever achieved.
- Odour & Taste - Odourless & Tasteless at recommended dosages.
- Kills Bacteria, Fungi and spores.
- Develops no antimicrobial resistance (AMR) like many antibiotics and chemicals.
- This product **can** be explored in many applications like Agriculture, Water, Foods, and Pharma & FMCG.
