OZOSAN™ DAIRY

Dairy industry in India has a very large and agro based industry. Almost every farmer having pet animals like cows and buffalos in his farms.

The raw milk collected in cans and vessels and supplied to main dairy from the cow and buffalo farm.

During the Raw milk transport milk gets spoiled. The main reason is cleanliness of transportation vehicles, cans and other vessels.

The water used in cleaning process increases the microbial load. The microorganism's contamination during cleaning process spoils milk during process and transportation.

Our product **Ozosan Dairy** can be added in water and can be used for cleaning many applications in dairy for udder cleaning, Milk tanks, Milk solo cleaning, and Bulk milk cooler cleaning. Equipments cleaning and most important are in cleaning in place (CIP).

Other products available in the market are chlorine based, acidic or basic in nature. Where our product is chemical, stabiliser free and water based with dissolved saturated stable oxygen in water.

Ozosan Dairy Comes in 5 Liter, 20 Liter and 35 Liter bulk packs.

For Commercial Enquiries please contact: **Envirosafe Techsolutions LLP, Pune.**

OZOSAN™ The Stable Oxygen Based Water Based Solution

Envirosafe Techsolutions LLP have come up with a novel solution in the field of Water, which is the most essential requirement of everybody on the Earth. Our team of Scientists has developed innovative Product named **“ OZOSAN ”** The Stable Oxygen Based Water Based Solution

These are few features & applications of Ozosan:

- **Ozosan** is not a Chemical compound like other stabilisers which are currently used.
- **Ozosan** can be used for decontamination with Oxygen concentration stabilized by process in Distilled water.
- It has no Stabilizer leaves no toxic colour or chemical residue.
- **Ozosan** has highest oxygen content (**Upto 50 %**) ever achieved.
- Odour & Taste - Odourless & Tasteless at recommended dosages.
- Kills Bacteria, Fungi and spores.
- Develops no antimicrobial resistance (AMR) like many antibiotics and chemicals.
- This product can be explored in many applications like Agriculture, Water, Foods, and Pharma & FMCG.
