OZOSAN™ PHARMA

In Pharma topmost care has to be taken considering Safety and Quality. Many Drugs & Formulations are produced in Controlled environment as a human consumption. Main concern is dedicated and clean area a free from Microorganisms.

Other products available in the market are chlorine based, acidic or basic in nature. Where our product is chemical, stabiliser free and water based.

Our product **Ozosan Pharma** exclusive made for Pharmaceutical applications mainly CIP and in sterile area. Can be used as disinfection process. The product is safe non toxic made from Green and novel technology.

The product has been tested for its efficacy and showed at above 0.1% (Recommended 0.15% and Upto 10 % wherever required). It kills most of the Microorganisms.

The product is Oxygen and Water based so can be used in various applications viz. Disinfection process, CIP and other product based applications.

Envirosafe Techsolutions can produce **Ozosan Pharma** with a concentration form **0.5% to 10.0%**.

The main requirement in the Pharmaceutical industry is effluent treatment plant (ETP). Main concern in ETP is to control Chemical Oxygen Demand (COD) and Biological Oxygen Demand (BOD). Many times the level of BOD and COD level alters because of effluent load. Our product **Ozosan Pharma** can be explored to control BOD levels which are very critical. We support Client for application, usage and implementation.

Ozosan Pharma Comes in 5 Liter, 10 Liter and 35 Liter bulk packs.

For Commercial Enquiries please contact: **Envirosafe Techsolutions LLP, Pune.**

OZOSAN™ The Stable Oxygen Based Water Based Solution

Envirosafe Techsolutions LLP have come up with a novel solution in the field of Water, which is the most essential requirement of everybody on the Earth. Our team of Scientists has developed innovative Product named “ **OZOSAN™** ” The Stable Oxygen Based Water Based Solution

These are few features & applications of Ozosan:

- **Ozosan** is not a Chemical compound like other stabilisers which are currently used.
- **Ozosan** can be used for decontamination with Oxygen concentration stabilized by process in Distilled water.
- It has no Stabilizer leaves no toxic colour or chemical residue.
- **Ozosan** has highest oxygen content (**Upto 50 %**) ever achieved.
- Odour & Taste - Odourless & Tasteless at recommended dosages.
- Kills Bacteria, Fungi and spores.
- Develops no antimicrobial resistance (AMR) like many antibiotics and chemicals.
- This product can be explored in many applications like Agriculture, Water, Foods, and Pharma & FMCG.
